Dustcontrol fights the unhealthy flour dust

Dustcontrol installed a DC Aircube and a DC 3800c stationary package to fight dust and to maintain health of the bakers.

"It’s perfect, works very well. You notice a big difference in the air. The DC AirCube works on a timer. When you show up in the morning the air is clean and fresh, it is also easier to keep the workplace clean. We had a lot of problems with flour dust before, now it is a totally new situation. I think everyone notices that, especially those with allergies” says Jan Delselius.

Reference project:
Extraction system to fight dust and maintain health.

Reference company:
• Delselius Bakery Gustavsberg Stockholm

The company contact:
• Jan Delselius Owner of Delselius

Dustcontrol AB:
• Jörgen Jakobsson Sales engineer Phone: +46 702 55 42 75 jorgen.jakobsson@dustcontrol.se
