

Declaration of Compliance

Version 2017-09-22

This is a Declaration Of Compliance for the followed cleaning accessory Part no 22001-0X, 22002-0X and 22003-0X which are intended to come into contact with foodstuffs.

We declare that all components of this Part No. are in compliance with the following EU regulation.

EU regulation 10/2011
EU regulation 2023/2006/EC
EU regulation 1935/2004
EU regulation 110/2011/EC
EU regulation 321/2011/EC
EU regulation 1183/2012/EC
EU regulation 202/2014/EC
EU regulation 2015/174/EC

The following standards and/or technical specifications have been applied.

ESD-protection: General conditions, according to SP-Method 2472, for approval and registration of approved products with regard to ESD-protection qualities.

ESD standard IEC 61340-5-1, edition 1.0, in 2007
IEC 61340-2-3, first edition (SP-method 2472 issue 6).

On plastic material and articles intended to come into contact with food for the below mentioned test conditions.

Test conditions: The migration was performed in accordance with relevant parts of EN 1186 as EN 1186-2, EN 1186-3, EN 1186-14, EN13130, EN 13130 and EPA 3052m.

Principle of migration test that has been performed:

Olive oil	the sample was exposed for by total immersion.
3% acetic and 10% ethanol	the sample was exposed for 2 hours at 70 °C.
Isooctane	the sample was exposed for 30 minutes at 40 °C.

Specific migration: An aliquot of the food simulant is analyzed for specific compound. The test was performed with triplicates.

The results for specific migration are below the specific migration limit. The threshold value for overall migration is 10mg/dm².
